

REMARKS

Applicants reply to the Notice of Allowance dated November 3, 2010. Applicants present one minor, non-substantive amendment to claim 86. Applicants respectfully request entry of this amendment without withdrawing the application from issue.

Applicants acknowledge the Examiner's statements of reasons for allowance of the above-referenced patent application in the Notice of Allowance and agree that the claimed subject matter is patentably distinct over the references of record. However, Applicants take no position regarding the reasons for allowance presented by the Examiner other than the positions Applicants may have previously taken during prosecution. Therefore, the Examiner's reasons for allowance should not be attributed to Applicants as an indication of the basis for Applicants' belief that the claims are patentably distinct. Furthermore, it is respectfully asserted that there may also be additional reasons for patentability of the claimed subject matter not explicitly stated in this record and Applicants do not waive their rights to such arguments by not further addressing such reasons herein.

The Examiner is invited to telephone the undersigned at the Examiner's convenience, if that would help further prosecution of the subject application. The Commissioner is authorized to charge any fees due to Deposit Account No. 19-2814.

Respectfully submitted,

Date: 1/27/11
